Profile

Full Stack Developer with hands-on experience building and deploying web applications from concept to production. Skilled in JavaScript, TypeScript, Python, SQL, React, Tailwind, Node.js, Express.js, and PostgreSQL. Passionate about creating scalable, user-focused applications and continuously learning modern technologies to solve real-world problems.

Experience

SOFTWARE DEV INTERN | MINISTRY OF INFORMATION, ACCRA | SEPTEMBER 2025

Developed and maintained full-stack web applications using HTML, CSS, JavaScript, PHP, and MySQL. • Designed and integrated database solutions to support application functionality. • Collaborated with team members to implement new features and resolve software issues. • Participated in testing, deb

FULL STACK DEV INTERN | QLIQ INTEGRATION, TAKORADI | JUNE – AUGUST 2026

Developed and maintained responsive web applications, ensuring compatibility across desktop, tablet, and mobile devices. • Gained hands-on experience with Angular for modern frontend development and C# for back-end application development. • Applied UI/UX design principles to create intuitive, userfriendly interfaces and improve user experiences. • Collaborated with team members on software development projects, participating in implementation, testing, and debugging.

Projects

GenZStack – Q&A platform

Tech Stack: React, Node.js, Express.js, PostgreSQL, Tailwind CSS

Live: <https://genzstack.vercel.app>

Built and launched GenZStack, a community-driven platform where users can ask questions, share knowledge, and showcase projects. • Developed core features including Q&A, comments, voting, question resolution, project showcases, weekly competitions. • Implemented secure authentication with email verification and designed personalized content feeds to improve engagement and content discovery. • Designed and maintained a responsive, modern user experience while managing the full development lifecycle from planning and development to deployment and ongoing improvements. • Continuously enhance the platform through performance optimization, bug fixes, feature updates, and user feedback.

SRAFAI Muna Islamic School Website

Technologies: React, Tailwind CSS, Formspree

Live: <https://srafaimmunaislamic.vercel.app>

Developed a responsive and modern school website for a client, providing information about the institution, academic programs, admissions, and contact details. Implemented a clean user interface with Tailwind CSS and integrated Formspree to handle contact and inquiry form submissions without requiring a custom backend. Focused on accessibility, responsiveness, and an intuitive user experience across devices.

CineRollio – To Watch

Technologies: React, Tailwind CSS, Local Storage

Live: <https://cinerollio.vercel.app/dashboard>

Built a personal movie management application that allows users to organize and track their movie-watching journey. Users can add movies with details such as title, release year, rating, personal notes, and custom poster images. Implemented category-based tracking (Not Watched, Currently Watching, and Watched) with persistent data storage using the browser's Local Storage, ensuring movie records remain available across sessions. Designed a responsive and user-friendly interface for seamless movie management.

Education

BACHELOR'S IN COMPUTER SCIENCE, TAKORADI TECHNICAL UNIVERSITY JANUARY 2024 – PRESENT

Courses

Software Development, Ghana Indian Kofi Annan Center of Excellence in ICT September 2023 – November 2023

Skills

Frontend : HTML, CSS, JAVASCRIPT, TYPESCRIPT, TAILWIND CSS, REACT, ANGULAR(Learning)

Backend: NODE JS, EXPRESS JS, C#(Learning), PHP, PYTHON

Database: MONGODB, POSTGRES, MYSQL

Tools: POSTMAN, FIGMA, GIT & GITHUB
